MANAGEMENT DISCUSSION & ANALYSIS REPORT

GLOBAL IRON & STEEL INDUSTRY OVERVIEW

The World Economic Outlook recently brought out by IMF has predicted a reasonably good growth in global GDP of 3.9% and this would be fuelled by GDP growth of 7.4% in India, 6.6% in China, 2.4% in the EU and 2.9% in the US. Japan, a major steel producer is also likely to experience a GDP growth of 1.2% in the current year. Thus, higher global economic growth which would also require an investment growth of 11% over last year to take the share of investment as a percentage of global GDP to 26% as per IMF estimates would generate substantial steel demand in varying proportions in different countries depending on the primary focus of Fixed Asset Investment as a percentage of GDP.

The vulnerability of these positive outlook, however hinges crucially on what is going to happen in China that not only controls nearly 50% of global steel production, but is also a major exporter (achieved 16% of global exports in 2017) of steel, dominates the iron ore prices (imported 1,075 MT of iron ore in 2017 and would gradually close down the high priced domestic iron ore concentrate producing units). It has also a major influence on global coking coal and coke prices.

As excess steel capacity was found to be the single phenomenon damaging the interests of the global steel producers during 2014-17 in terms of lowering the prices and thereby the profitability of the industry, China, having accounted for nearly 50% of the estimated surplus steel capacity, had to assure the outside world that its commitment to bring down the carbon footprint would entail elimination of some of the polluting units in steel, coal and cement. It had set a target of closing down 150 MT steel capacity during 2016-20. The record so far is good and it is likely that China would overshoot the target by 2020.

The implication for the global steel trade arising out of US actions on steel imports under Section 232 of US Trade Expansion Act, 1962 may not be significant as the US has initiated exclusion action with a number of major trading partners. For China, however, the protectionist move by the US may extend to products other than steel and may include Chinese engineering exports. As the US is keen to improve the productivity of its manufacturing sector for job consideration and creating earning opportunities, it may restrict imports of manufactured products from China. The resultant slowdown in Chinese indirect steel exports would imply that indigenous demand for steel in China must grow by a larger extent to compensate the loss of steel market for making exportable engineering items to the US. The inability of the Chinese domestic market to grow to make up the shortfall may prompt China to enhance steel exports and this action may depress the global prices of HRC and other flat products.

The steel industry has been undergoing a technological revolution, and the trend in building new production capacity has been towards the recycled steel-scrap-using electric arc furnace (EAF) by smaller mills. Although integrated steel works where steel is made from iron ore are operating at record levels of efficiency, EAF steel works with production capacities in the order of less than 1 million tonnes a year are becoming more common in the main steel-producing countries of the world.

Thus, apart from these few unpredictable events, the global market for steel in 2018 is poised for a stable growth for steel industry in terms of a reasonable margin and profitability for the industry sufficient to attract more investment for creation of fresh capacities in the product range where indigenous availability remains a constraint to cater to the emerging requirements of the critical sectors in the economy.

INDIAN IRON & STEEL INDUSTRY OVERVIEW

Indian firms are estimated to have churned out a record amount of steel in the year that ended in March, 2018 as the government took steps to protect steel makers, construction activity rebounded and China shut down illegal factories. India produced 86.7 million tonnes (mt) in the nine months to December 2017 from 73.96 mt in the corresponding previous year, according to provisional figures from the steel ministry. Exports rose to 7.6 mt from 4.98 mt in the previous year. India, in fact, has been a net exporter of steel for the past 13 months and has surpassed Japan to be the world's second largest exporter.

Last year's National Steel Policy that projected crude steel production capacity will increase to 300 mt per year for 2030-31 from 100-120 mt now came on heels of the government introducing a minimum import duty (MIP) on certain steel products, and an anti-dumping duty on products from China and European countries. The duty on Chinese products was later extended to five years.

Across the northern border, the Chinese seem no longer interested in keeping open capital-intensive units

that are racking up losses. In 2016 and 2017, it phased out 115 mt of capacity and is aiming to further cut production by 30 mt in 2018. Marginal producers fell afoul of the country's new environmental norms and have been shut down.

Indian steel makers have made the most of this. Domestic demand for steel has bounced back over the past year, growing at 7.6% y-o-y. This growth has been supported by a strong pick-up in infrastructure execution in the past year. JSW Steel, for instance, saw sales of its long products grow 11% y-o-y, the government's Make in India initiative has come out very strongly, the government's preferential procurement definitely has given a fillip and more and more orders are likely in the days ahead with the infrastructure development

Long-steel products are bulky and difficult to ship. So, as local construction activity has increased—especially of highways, bridges and metro lines—contractors have had to depend on locally made long-products to meet demand. Till last year, long steel sold at a discount of 15-17% to flat steel. The gap has since narrowed to 10%.

Long steel includes categories like TMT bars, which goes into construction and infrastructure. Given that the government has set aside Rs 14.3 lakh crore towards infrastructure expenditure, we see this momentum is likely to sustain with steel production growing at over 5% over the next two years.

Government Initiatives

Some of the other recent government initiatives in this sector are as follows:

- Government of India's focus on infrastructure and restarting road projects is aiding the boost in demand for steel. Also, further likely acceleration in rural economy and infrastructure is expected to lead to growth in demand for steel.
- The Union Cabinet, Government of India has approved the National Steel Policy (NSP) 2017, as it seeks to create a globally competitive steel industry in India. NSP 2017 targets 300 million tonnes (MT) steel-making capacity and 160 kgs per capita steel consumption by 2030.
- The Ministry of Steel is facilitating setting up of an industry driven Steel Research and Technology Mission of India (SRTMI) in association with the public and private sector steel companies to spearhead research and development activities in the iron and steel industry at an initial corpus of Rs 200 crore (US\$ 30 million).

OPPORTUNITIES AND THREATS

India has one of the richest reserves of all the raw materials required for the Iron & steel industry, namely land, capital, cheap labour, iron ore, power, coal etc. Indian Iron and steel industry with its strong forward and backward linkages contributes significantly to overall growth and development of the economy. As per official estimates, the industry today directly contributes 2% of India's Gross Domestic Product (GDP) and its weightage in the official index of Industrial Production (IIP) is 6.2 %.

The topmost factor determining the demand is the GDP of the country. The dependency is quite different for an advanced economy or a developing economy. People in country with increasing GDP will spend more on steel based on products, investments etc. Typically the per capita consumption keeps rising as the income level per head increases till it reaches an upper limit of income level. The consumption is somewhere around 120 to 160 kgs per head.

The next factor is the resource availability. The availability of iron ore, coal both in terms of quality and quantity triggers investment towards steel industry. In spite of all modern cheap transport, the transport logistics costs play a major role for steel industry and so when resources are available, building steel plants close to such resources will make the steel production cheaper.

Availability of downstream economy who need steel as input can also cause the need for a booming steel industry. This could be both, manufacturing setups (like India focusing on Made in India) or infrastructure developments.

One critical factor is also the government policies. The government could specifically target to produce iron & steel either to improve employment (as steel is a manpower intensive industry) or on the other side decide not to allow steel production even if all other factors favour it because of other consideration like pollution.

Government Initiatives:

The Government of India initiated several steps to protect the iron & steel industry from the external threats of dumping and uniform trade. Following were the measures taken:

- Bureau of Indian Standards (BIS) -Norms Compulsory BIS norms were laid down for the steel industry and production of steel. The norms were also applied to overseas firms, which are licensed steel exporters to India. This reform was thoughtfully imposed to maintain consistency and improve the quality of steel, to compete with international standards.
- Annuling Classification-The Government removed classification of steelmakers in their projects to avoid any discrimination arising due to classification. Further, it served to provide equal opportunity for all steel manufacturers. Anti-dumping Measures India imposed strict anti-dumping duties on China, the United States and other countries to protect the interests of domestic steel producers. A 'Minimum Import Price' (MIP) was imposed on certain steel imports, which was a key factor in reducing low-priced steel imports to India. The Safeguard duty is another measure by the Government that will eventually replace the MIP.
- Railway Freight Reforms- The Government of India has withdrawn the differential railway freight policy for domestic consumption and exports of iron ore and pellets. This reform will help to bolster iron ore exports. Domestic Finished Steel price trend Domestic prices for both hot rolled coil and plate increased between 15% and 19% since April 2016. They reached peak price in January 2017. However, there has been a downward trend in the last few months. Additionally, price of long steel reached its apex in March and April 2017, thereafter facing a downward trend. Further, prices of TMT and wire rod have increased upto 9% since April 2016.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

Make in India Manufacturing sector is the core driver of economic growth for any country, and the Government has shown strong intent to make India a global manufacturing hub through the 'Make in India' initiative launched in 2014. The initiative aims to build best-in-class manufacturing infrastructure by enabling investments, boosting innovation, encouraging skill development and strengthening intellectual property protection. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020. Our Company also believes in the initiative taken by the Government and has adopted Make in India Policy. The Company has earned its position among the top ten manufacturers of Re-bars and Structural's under the segment of smaller dia size of Re-bars and lower section of structural's. The product we specialize in manufacturing are as under:

Particulars	Size
TMT Re-Bars	8 mm to 25 mm
Structural Re-Bars	35mm*35mm*5 40mm*40mm*75

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The company has an adequate internal audit system that promotes reliable financial reporting, safeguards assets, encourages adherence to fair management and ethical conduct. The internal control systems have been designed in a way that they not only prevent fraud and misuse of company's resources but also protect shareholder's interest.

The Company has sufficient and commensurate internal control systems to match the size and the sector it falls under. The Company has well defined and clearly laid out policies, processes and systems. These are strictly and regularly monitored by the top management and any digression or discrepancy is immediately flagged off and corrected. The Company also has a regular internal audit process that is monitored and reviewed by the Audit Committee, which ensures that any deviations from set benchmarks are immediately reported and corrected. The Company regularly keeps upgrading its systems and processes to ensure these are up-to-date and the latest.

Key Highlights of Iron & Steel Industry

- Infrastructure, oil and gas and automotives would drive the growth of the industry
- Steel production in India is forecast to double by 2031, with growth rate expected to go above 10 percent in FY 18
- To achieve steel capacity build-up of 300 million tones per annum (MTPA) by 2030, India would need to invest US\$ 156.08 billion by 2030-31.
- Ministry of steel plans to setup Steel Research and Technology Mission in India to promote R & D activities in the sector
- As of 2017, India is the world's 3rd largest producer of crude steel (up from 8th in 2003). India's steel production in 2017 stood at 101.4 MT.
- National steel policy (NSP) implemented to encourage the industry to reach global benchmarks.

OUTLOOK

The growth momentum should rise, driven by the Government's policy initiatives in areas such as taxation (GST), foreign direct investment (FDI), and the ease of doing business, among others. Other major factors helping India stay as a bright spot in the global economic landscape include the lower global oil price, with positive impact on the country's import bill, a well-regulated monetary policy by the Reserve Bank to stabilize prices, and improving fiscal condition. The Government's endeavor to drive a bigger as well as a cleaner GDP is expected to augur well for the economy in the medium and long terms. The growth recovery has primarily happened due to discretionary spending, public investment and FDI reforms. The introduction of GST and higher outlays in the Budget 2017 are expected to drive growth as well.

Looking at Indian government's focus on rapid infrastructural development across the country by constructing railways, roads, bridges, dams, airports, power plants and many more, construction is now growing at a fast pace.

RISKS AND CHALLENGES

Across the world and in India too, business dynamics are fast changing. With greater digitization, every manufacturing process as well as pre and post manufacturing parameters are being revisited and updated rapidly. Being a producer of components for end-user industries, which are characterized by their unique economic cycles. Your Company has to remain alert to a range of factors that present themselves as risks and could upset the Company's sectoral growth path. Accordingly, wherever possible, your Company seeks to anticipate and pre-empt any foreseeable risk with robust mitigation strategies.

Here are some of the key risks which could emerge and the corresponding mitigation measures:

Technology Risk

The Company has to constantly keep up with emerging technology to ensure superior quality and better efficiency of its products as its clients are marquee players in their industries and expect only the best. While investing in technology is the obvious solution, it could result in obsolescence before the technology investment has been fully depreciated. AIL follows a balanced approach to invest in new technology so as to meet the product requirements of its clients without over leveraging any single technological advancement.

Market Risk

AIL supplies its products to end user industries in the construction equipment industries which are impacted by economic cycles.

Your Company ensures that it caters to a diverse universe of clients within the country. This product, industry and geographic diversification minimises the impact of a down-cycle on any single client segment.

Raw Material Risk

Once the capital structure is in place, input costs form a bulk of the Company's business expenses. Any upward fluctuation in these costs could have a negative impact on the Company's bottom-line.

The ability to meet its clients' expectations in terms of deliverables has put the Company's in a position to draw out long-term contracts with clients that includes pass through clauses to cover hikes in the cost of raw materials.

Financial Risks

The Company faces many risks with respect to its financial transactions, driven by changes in foreign exchange rates, interest rates, credit availability and liquidity. The Company is adequately equipped to deal with all types of financial risks. It takes into account its long-term growth objectives while managing its financial dealings.

Regulatory Risks

There is always a chance that the policy scenario pertaining to the Company's processes and products, or to those of its clients, could change. These could be changes in laws, regulations, policies and other Governmental actions including those affecting environmental matters, employee welfare, safety, wastage emissions. To pre-empt any business disruption due to regulatory changes, the Company has a dedicated compliance team in place which tracks laws applicable to the Company and suggests course corrections, if necessary.

Product Risks

AIL manufactures products that are critical components for user industries, where precision and quality are prerequisites. Any deviation from expectations can impact the Company's revenue and more importantly, reputation. Your Company has put in place internal systems with high standards for product design and quality. It also incorporates feedback from the clients on product supplies at regular intervals.

Human Resource Risk

Skilled human resources are crucial to the production processes at the Company. Non-availability of the talent or high rates of attrition may impact the business. The Company has an internal assessment and training programme for developing the skills of the existing workforce. Also, the Company undertakes recruitment and training on regular basis.

ROAD AHEAD

India has surpassed Japan to become the world's second largest steel producer, and has envisaged achieving 300 MT of annual steel production capacity by 2030.

Steel consumption is expected to grow 5.7 per cent year-on-year to 92.1 MT in 2018.

India is expected to become the second largest steel producer in the world by 2018, based on increased capacity addition in anticipation of upcoming demand, and the new steel policy that has been approved by the Union Cabinet in May 2017 is expected to boost India's steel production. Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

HUMAN RESOURCE

The employees are considered by your company as its greatest asset and the company has created a work

environment that ensures their well-being. The company encourages an environment of industrial goal setting, continuous improvement, health and safety awareness and corporate sustainability. The work-force of your company is an assortment of varied qualifications and experience in the domain of engineering, management and finance. Your company believes the contribution of the human assets also plays in the growth of the company. The Current employee strength is 102 numbers.

CAUTIONARY STATEMENT

Statements made in Management Discussion and Analysis Report describing the Company's objectives, estimates, expectations or predictions are "Forward looking Statement" within the meaning of applicable laws and regulations. They are based on certain assumptions and expectations of future events. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operation include global and Indian demand- supply condition, raw material availability, trained manpower, changes in Government regulations, tax regimes, economic development within India and the countries within which the Company conducts business and other incidental factors.

BOARD'S REPORT

These financial statements for the year ended 31 March, 2018 are the Company's first Ind AS financial statements. The impact of transition has been accounted for in the opening reserves and the comparative period figures have been reinstated accordingly. Further, as per Ministry of Corporate Affairs (MCA) notification, the financial statements have been prepared as per the format prescribed under the Schedule III to the Companies Act, 2013.

LISTING OF SHARES

The Equity Shares of the Company are listed on the Bombay Stock Exchange Limited, Mumbai. During the year the Company migrated from SME Board of BSE to Main Board of BSE, w.e.f 5th June, 2017.

PERFORMANCE EVALUATION

The Company has devised a policy for performance evaluation of the Board, Committees and other Individual Directors (including Independent Directors) which include criteria for performance evaluation of Non-Executive Directors and Executive Directors. The evaluation process interalia considers attendance and participations of Directors in the meetings; commitment (including guidance provided to senior management outside of Board/committee meetings); Effective deployment of qualification, knowledge and expertise; effective management of relationship with stakeholders; Integrity and maintaining of confidentiality; Independence of behaviour and judgement and impact and influence.

During the year under review, the Board carried out annual evaluation in accordance with the above said policy and expressed satisfaction on the evaluation process and the performance of all the Directors, the Committees and the Board as a whole.

POLICY RELATING TO DIRECTORS APPOINTMENT, PAYMENT OF REMUNERATION AND DISCHARGE OF THEIR DUTIES

The Committee has formulated the Nomination and Remuneration Policy which broadly laid down the various principles of remuneration and covers the procedure for selection, appointment and compensation structure of Board members, Key Managerial Personnel (KMPs) and Senior Management Personnel (SMPs) of the Company. The said Policy forms a part of this Report as Annexure-A, and the same is also available on the website of the company at www.aanchallispat.com

DIRECTORS RESPONSIBILITY STATEMENT

In accordance with the provisions of Section 134(5) of the Companies Act, 2013 the Board hereby submit its responsibility Statement:—

- in the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;
- the directors had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of

the company as at 31st March, 2018 and of the profit of the company for the year end on that date;

- (c) the directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013, for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities;

Form No. MR-3 SECRETARIAL AUDIT REPORT FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2018

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
AANCHAL ISPAT LIMITED

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Aanchal Ispat Limited (hereinafter called the company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the company's books, papers, minute books, registers, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March, 2018 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, registers, forms and returns filed and other records maintained by Aanchal Ispat Limited ("the Company") as given in Annexure I, for the financial year ended on 31st March, 2018 according to the provisions of:

- (i) The Companies Act, 2013(the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings (Not applicable to the Company during the Audit period).
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009; (Not applicable to the Company during the Audit period).
 - (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 (Not applicable to the Company during the Audit Period);
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; (Not applicable to the Company during the Audit Period); and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 (Not applicable to the Company during the Audit Period).
- (vi) We have relied on the representation made by the Company and its Officers for systems and mechanism formed by the Company for compliances under other applicable Acts, Laws and Regulations to the Company. The sector specific and other list of head/groups of general Acts, Laws and Regulations as

applicable to the Company is given in Annexure II.

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards (SS-1 and SS-2) issued by The Institute of Company Secretaries of India.; and
- (ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings were carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committees of the Board, as the case may be.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that with effect from 5th day of June, 2017 the equity shares of the company which were listed under BSE SME Platform were migrated to the Main Board Platform in the list of "B" Group.

INDEPENDENT AUDITOR'S REPORT

To the Members of
AANCHAL ISPAT LIMITED

Report on the Financial Statement

We have audited the accompanying Ind AS financial statements of AANCHAL ISPAT LIMITED ("the company"), which comprises the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statement

The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements, give the information required by the Act in the manner so require and give a true and fair view in conformity with the accounting principles generally accepted in India:

- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2018;

The Annexure A referred to in paragraph 1 of the Our Report of even date to the members of AANCHAL ISPAT LIMITED on the accounts of the company for the year ended 31st March, 2018.

On the basis of such checks as we considered appropriate and according to the information and explanation given to us during the course of our audit, we report that:

- 1) (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets on the basis of information available.
- (b) As explained to us, fixed assets have been physically verified by the management at reasonable intervals; no material discrepancies were noticed on such verification.
- (c) In our opinion and according to the information and explanations given to us, no substantial part of fixed asset has been disposed off during the year and therefore does not affect the going concern assumption.
- 2) (a) As explained to us, the stock is regularly verified by the management at reasonable intervals.
- (b) In our opinion and according to the information and explanations given to us, the procedure for verification of stock followed by the management is reasonable and adequate in relation to the size of the Company and the nature of its business.
- (c) In our opinion and on the basis of our examination of the records, the Company is generally maintaining proper records of its stocks. No discrepancies have been noticed on verification of stocks statement as compared to book records.
- 3) The Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability partnerships or other parties covered in the Register maintained under section 189 of the Act. Accordingly, the provisions of clause 3 (iii) (a) to (c) of the Order are not applicable to the Company and hence not commented upon.
- 4) According to the information and explanations given to us, the company has not advanced any loans, including any loan represented by a book debt, to any of its directors or to any other person in whom the director is interested or given any guarantee or provided any security in connection with any loan taken by him or such other person. The company has not made any investments during the year. Therefore provisions of Clause 3(iv) of the Companies (Auditor's Report) Order 2016 are not applicable. The company has not granted any loans or provided any guarantees or security to the parties covered under section 185 of Companies Act 2013.
- 5) The Company has not accepted any deposits from the public and hence the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the Companies (Acceptance of Deposit) Rules, 2015 with regard to the deposits accepted from the public are not applicable.
- 6) We have broadly reviewed the cost records maintained by the Company relating to its products pursuant to the Companies (Cost Accounting Records) Rules, 2011 prescribed by the Central Government under Section 148(1) of the Act, and are of the opinion that prima facie the prescribed Cost Records have been made and maintained. We have, however, not made a detailed examination of the cost record with a view to determine whether they are accurate or complete.
- 7) a) According to the information and explanations given to us, the Company is generally regular in depositing undisputed statutory dues, including provident fund, employees' state insurance, sales tax, income tax, wealth tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues, as applicable, with the appropriate authorities.
- b) The particulars of dues of sales tax, income tax, wealth tax, service tax, duty of customs, duty of excise, value added tax and cess as applicable as at 31st March 2018 which have not been deposited on account of a dispute are as follows –

Name of the Statute	Nature of Dues	Amount Involved	Period to which the amount relates	Forum where Dispute is Pending

"Annexure B" to the Independent Auditor's Report of even date on the Financial Statements of AANCHAL ISPAT LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of AANCHAL ISPAT LIMITED ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility

of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India"

Notes to Accounting Policies

1. ACCOUNTING POLICIES

1.01 General Corporate Information

M/s AANCHAL ISPAT LIMITED (the company) is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The shares of the company are listed on Bombay Stock Exchange. The company caters to domestic markets only. The company has been incorporated with the object of manufacturing of Mild Steel TMT Re-bars, Structural Re-bars, Round and other Sectional products.

The Company also engages in trading of Mild Steel Billets, Cement and Clinker and TMT and Structural Re-Bars.

The financial statements are presented in Indian Rupee (INR) which is also the functional currency of the company.

1.02 Application Of New And Revised Ind As

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from 1st April 2017, with a transition date of 1st April 2016. The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the 'first Ind AS financial statements' for the year ended 31st March 2018, be applied retrospectively and consistently for all financial years presented. However, in preparing these Ind AS financial statements, the Company has availed of certain exemptions and exceptions in accordance with Ind AS 101, as explained in note 4. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognised directly in retained earnings.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.01 Statement of compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standard) Rules, 2015. Upto the financial year ended March 31, 2017, the Company prepared its financial statements in accordance with the requirements of previous GAAP, which includes Standards notified under the Section 133 of the Companies Act, 2013. These are the Companies first Ind AS financial statements. The date of transition to Ind AS is April 1, 2016. Refer Note 4 for the details of first time adoption exemptions availed by the Company.

2.02 Basis of preparation and presentation

These financial statements of the Company are prepared under the historical cost except for certain financial instruments that are measured at fair value at end of each reporting period. Historical cost is generally based on fair value of the consideration given in exchange for goods and services

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date..

In addition, for financial reporting purposes, fair value measurements are categorised in to Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.03 Use of Estimates

The preparation of separate financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the separate financial statements and the reported amounts of income and expense for the periods presented. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

2.04 Revenue Recognition

(I) Sale of goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have been passed, at which time all the following conditions are satisfied:

- The Company has transferred to the buyer the significant risks and rewards of ownership of the goods
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

(ii) Dividend and Interest income

Dividend income is recognised when the company's right to receive dividend is established. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate applicable.

2.05 Foreign Currencies

Transactions in currencies other than entity's functional currency (foreign currency) are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies remaining unsettled at the end of the each reporting period are remeasured at the rates of exchange prevailing at that date.

2.06 Employee Benefits

i) Short-term benefits

Short term employee benefits are recognised as an expense at the undiscounted amount in the statement of profit and loss of the year in which the related service is rendered.

ii) Defined contribution retirement benefits

Payments to defined contribution retirement benefits are recognised as an expense when employees have rendered services entitling them to the contributions. Defined contribution plans are those plans where the Company pays fixed contributions to funds/schemes. Contributions are paid in return for services rendered by the employees during the year. The contributions are expensed as they are incurred in line with the treatment of wages and salaries. The liability as on the balance sheet is ascertained by an independent actuarial valuation.

iii) Defined benefit retirement benefits

The cost of providing defined benefit retirement benefits are determined & recognised as per independent actuarial valuations report carried out at the end of each reporting period. The Company provides gratuity to its employees. All actuarial gains or losses are recognised in the statement of profit and loss in the period in which they occur.

2.07 Taxation

i) Current tax

Current tax is payable based on taxable profit for the year. Taxable profit differs from 'profit before tax'

as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates in accordance with the provisions of the Income Tax Act, 1961.

ii) Deferred tax

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right to such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

iii) Minimum alternate tax

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is recognised as an asset in the balance sheet when there is convincing evidence that the Company will pay normal income tax during the specified period and it is probable that future economic benefit associated with it will flow to the Company.

2.08 Property, Plant and Equipment

- a) Buildings and Roads, Plant and Equipment, Furniture and Fixtures and Vehicles held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes purchase cost of materials, including import duties and non-refundable taxes, any directly attributable costs of bringing an asset to the location and condition of its intended use and borrowing costs capitalised in accordance with the Company's accounting policy.

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over the useful lives, using the straight-line method. Depreciation of assets commences when the assets are ready for their intended use. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any changes is accounted as change in estimate on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in the statement of profit and loss.

The Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.09 Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment (if any) losses. Amortisation is recognised over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. Estimated useful lives of the intangible assets are as follows:

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of intangible assets is recognised in the statement of profit and loss.

The Company has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.10 Impairment of Assets

The carrying values of assets/cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased such reversal of impairment loss is recognised in the Statement of Profit and Loss.

2.11 Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes purchase price, non refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Net realisable value is the price at which the inventories can be realised in the normal course of business after allowing for the cost of conversion from their existing state to a finished condition and for the cost of marketing, selling and distribution.

Stores and spares are valued at cost comprising of purchase price, non refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

2.12 Provisions, Contingent Liabilities and Contingent Assets

(a) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Provisions are not discounted to their present value are measured at the management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

(b) Contingent liabilities and assets

Contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or is a present obligation that arises from past events but is not recognised because either it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or a reliable estimate of the amount of the obligation cannot be made. Contingent liabilities are disclosed and not recognised. In the normal course of business, contingent liabilities may arise from litigation and other claims against the company. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the company is involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

2.13 Foreign Exchange Gain and Losses

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

2.14 Cash and Cash Equivalents

For the purpose of presentation in the statement of cash flows, Cash and cash equivalents includes cash on hand and short term deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.15 Trade and Other Payables

These amounts represent liabilities for goods and services received by the Company prior to the end of reporting period which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

2.16 Segment Reporting

As per the management, the company is dealing in single product i.e. construction material (Iron & Steel, Cement, Clinker and Charcoal) and therefore there are no separately identifiable products. Similarly, the company has no separately identifiable geographical segments.

2.17 Borrowing Costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are expensed in the period in which they are incurred.

2.18 Earnings Per Share

Basic earnings per share is computed by dividing the profit after tax before other comprehensive income by the weighted average number of equity shares outstanding during the financial year. Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year.

3. FIRST-TIME ADOPTION

3.01 Overall principle

The Company has prepared the opening balance sheet as per Ind AS as of April 1, 2016 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS.

3.02 Deemed cost of property, plant and equipment and intangible assets

The Company has elected to continue with the carrying value of all of its property, plant and equipment and intangible assets recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.
